

# Fine Army Paper

Here we are. United. Most of the jeets have left and we are finally finding some stability of the true diamond hands. Green days will come, but its the red days during which we have to work hard, and have no doubt.

Big inflows are good, but we need engagement and we need the fine marines to direct all this inflow of activity and new people into useful tasks that we all have to participate in.

We have been doing a good job on X(Twitter). There are very little posts under which we aren't the top post when we get to it. HOWEVER we need to expand our reach. TikTok is the next platform that we need to take over, and following YouTube.

## TikTok

There are videos made available at this repository for grabs [HERE](#). We have an organised group that is running weekly promos on TikTok posts. We don't have as much army on TikTok as we do on X(Twitter). We need you to assemble with US!

If you have a TikTok account and you are willing to run paid promotions on your account, then send a message on telegram to @ShibM2k or @Akichairo, or tag them inside one of the Fine telegram channels. This way you can contribute to the Fine cause directly. The TikTok post promos start at \$4-10 depending on your location.

We will add you into a group that organises the TikTok raiding times and when who posts what.

NO FEAR

# Tagging your frens, us!

Tagging other friends and accounts in your TikTok posts can be important for several reasons:

1. **Increased Engagement:** Tagging can lead to more interactions as tagged users are likely to engage with the post, increasing its visibility.
2. **Wider Reach:** When you tag others, your content can appear in the feeds of their followers as well, thus expanding your audience.
3. **Community Building:** Tagging helps in building a sense of community, especially if you frequently engage with the same group of users.
4. **Collaboration and Networking:** It's a way to acknowledge collaborations or to network within the TikTok community.
5. **Content Discovery:** Tagging relevant creators or friends in your posts can help your content get discovered by users interested in similar topics.
6. **Shared Experiences:** Tagging is often used to share experiences or moments with friends or other users who are part of the video or related to its content.

***These accounts will run weekly/bi-weekly promos, therefore it's best to tag them on your TikTok posts***
